EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

The title has been changed to:

**CONTROL DEVICE FOR INJECTION MOLDER DETERMINING WHETHER
USER OF INJECTION MOLDER IS REGISTERED**

Allowable Subject Matter

3. Claims 1-3, 5-6, and 8-30 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest that the permission control portion requests confirmation upon selecting the setting inhibition state when the indication is operated by the registrant of the device, in combination with the remaining features and elements of the claimed invention. This feature is more narrowly defined in claims 24 and 26, wherein it is recited that the sub screen display displays a lock button when the permission control portion selects the setting permission state, and

Art Unit: 2125

wherein the display portion displays a lock confirmation window when the lock button is touched.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
